Follow Website Information

All applicants **MUST** visit our website www.vtfireacademy.org and follow any changes and updates to your scheduled dates, times and testing information. Failure to do so may lead to loss of admission to testing events.

This year's Entry Level testing consists of two processes; the written exam and the Candidate Physical Ability Test (CPAT). Below are some frequently asked questions regarding the process.

Q: Why do I need to go through these processes to be a fire fighter?

A: A joint initiative was established between the Vermont Division of Fire Safety, the Professional Firefighters of Vermont and the Vermont Career Fire Chiefs to develop and commit to require the IAFF / IAFC Candidate Physical Ability Test for entry level firefighters in Vermont.

Q: Do all career fire departments in Vermont use CPAT?

A: As of the date of this document, the following career fire departments require the successful completion of CPAT as the physical ability testing requirement for entry level firefighters: Brattleboro Fire Department, Burlington Fire Department, Hartford Fire Department,

Saint Johnsbury, South Burlington Fire Department, Springfield Fire Department, and Williston Fire Department.

Q: How is the written exam chosen?

A: The written exam is a validated exam selected from an assortment of testing companies, an entrance test comes in many forms and you should read carefully what to look for in a particular entrance test. Please realize that the VT written test is specific, and a test from another jurisdiction may not be accepted by a participating Department.

Q: What is the passing score for the written exam?

A: A minimum score of 75% is required to pass the written exam.

Q: How long is successful completion of the testing valid?

A: The written exam is valid for 24 months from date of successful completion. The CPAT is valid for 12 months from the date of successful completion as per your CPAT certificate. This applies to both certificates issued in Vermont and from other jurisdictions.

Q: Do departments receive my CPAT time or my test score?

A: Per the IAFF / IAFC license requirements, CPAT is a PASS / FAIL test. Departments will not receive your completion time. As for the written exam, departments will receive your written test score as part of the eligible candidate listing from the Vermont Fire Academy.

Q: What if I fail this year's written exam?

A: The 2011 written exam will only be administered on the date as per the 2011 application paperwork. You will be allowed to take the CPAT test regardless of your success in the written exam.

Q: What if I have already passed the CPAT in another state within the last 12 months?

A: You can take just the written exam during the entry level testing process. Please be aware however that the departments that use CPAT as a prerequisite for hiring an entry level firefighting position require that the applicant has passed CPAT within 12 months of the department application deadline.

Q: The written test has a study guide. Is it mandatory to have this and if so, why doesn't the Fire Academy include the study guide in the application fee?

A: The Fire Academy cannot mandate the purchase of the study guide. We can only explain to you that the study guide is a sample of the type of questions in the written exam.

The Vermont Division of Fire Safety sets the application fee. It is up to the candidate if they want to purchase the study guide. Also, candidates that test in other jurisdictions may already have the appropriate study guide. This also applies if there are no changes in the edition of the study guide from one year to the next.

Q: Once I pass the entry level testing, what can I expect?

A: Vermont does not maintain a "State List". The Vermont Fire Academy issues a listing of eligible candidates that successfully completed both the written and physical ability tests. A participating Department will advertise for open positions with the pre-requisites of valid, successful completion of CPAT and the written exam. It will be up to the Department to confirm with the Vermont Fire Academy that your information is valid and correct. Candidates that successfully complete the Candidate Physical Ability Test will be issued a "card" from the Vermont Fire Academy. Candidates will be notified in writing of their written test score.

ACKNOWLEDGEMENT AND WAIVER OF CPAT ORIENTATION AND / OR CONDITIONING PERIOD AND / OR TIMED PRACTICE RUNS.

This form must be signed before you will be permitted to take the Candidate Physical Ability Test (CPAT) if you did not attend the orientation and practice sessions prior to this test.

A fire department administering CPAT as a condition of hire, must ensure that all candidates were provided full and equal access to a CPAT orientation and practice program. The orientation and practice program must commence at least eight (8) weeks before commencement of the official CPAT test date. This program is composed of two phases.

1. The fire department will provide each candidate a full and equal opportunity to attend at least two(2) orientation sessions during which candidates will receive “hands-on” familiarity with the actual CPAT test apparatus. These required orientation sessions will be provided by certified Peer Fitness Trainers, fitness professionals and/or CPAT-trained fire fighters (proctors). These individuals will familiarize each candidate with each CPAT task and the test apparatus. They will advise all candidates concerning specific conditioning regimens and techniques to help each candidate prepare for the CPAT test.

2. The fire department will provide each candidate a full and equal opportunity to attend at least two (2) timed practice runs of the CPAT, using CPAT apparatus. These required practice runs must occur within thirty (30) days before the commencement of the official CPAT test dates. Following each practice session, certified Peer Fitness Trainers, fitness professionals, and/or CPAT-trained fire fighters (proctors) shall help the candidates understand the test elements and how they can improve their performance and conditions.

This two-phased orientation and practice program is a mandatory condition for candidates taking the CPAT test. However, it is recognized that some individuals may be capable of passing CPAT without participation in these programs. These individuals may excuse themselves from this mandatory condition upon the receipt

by the fire department of a written and signed waiver, acknowledging that the fire department made available these programs on an equal basis to all candidates and that the candidate knowingly and voluntarily waived participation in the orientation and practice sessions.

Orientations and practice sessions are designed to give each candidate identical information regarding the test so that each will have the maximum probability for success. During the classroom orientation, candidates are shown the CPAT orientation video and are given the CPAT Candidate Preparation Guide. The orientation and practice sessions provide an equal and full opportunity for each candidate to view the test events, talk with qualified professionals and instructors and physically examine and use test equipment, tools, and props in a controlled and consistent setting. Candidates are directed to familiarize themselves with all elements of the test. Further information regarding the orientation and practice sessions may be obtained from your fire department.

I have read and understand the nature of the orientation and practice sessions and the time period between orientation and actual CPAT administration. By executing this acknowledgment, I hereby knowingly and voluntarily waive my right to participate in the above-described orientation and/or practice sessions.
